ICY BOX
IB-AC515a

DisplayPort™ 1.2 to VGA Adapter

Key features

- Adapts DisplayPort (Input) to VGA (Output)
- Supports VESA & CEA timing standards up to UXGA and resolution 1920x1200@60Hz
- Supports Mirror and extended mode
- Active mode to translate the exact DP signal to VGA signal
- Support DP 1.2, VESA DDM & EDID 1.4
- Support main link rates of 2.7 Gbps & 1.62 Gbs from source
- Plug and Play

Packing content
1x IB-AC515a

Function

The adapter converts a DisplayPort™ to a VGA Port and connects i.e. a MacBook® with a beamer.
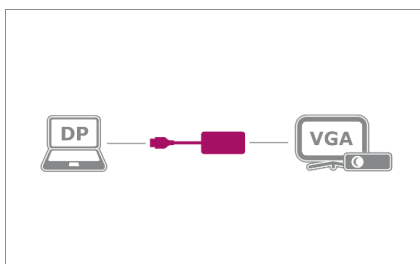

Technical data

Model	IB-AC515a	**Resolution**	Full HD 1080P
Article no.	60477	**Colour**	Black
EAN code	4250078168591	**Interface**	DisplayPort™ 1.2 to VGA
Brand	ICY BOX	**Material**	Plastic

ICY BOX **IB-AC515a**
DisplayPort™ 1.2 to VGA Adapter

The DisplayPort™ can...

do a bit more, as the name says. It does not only transmit video signals, but audio as well. In combination with VGA, only video is transmitted of course, since VGA is unable to transmit any audio signals.

Active is hip

The IB-AC515a has an active chipset, which is responsible for the precision of the transmission from DP 1.2 to the VGA interface. Mirroring or expending modes for the screens are both supported.

So why VGA?

Because discarding older screens is not always a necessary option. Some even support Ultra HD. If so, this adapter exhausts the maximal capacity of VGA. It furthermore supports UXGA and reaches a resolution of up to 1920x1200p@60 Hz.

Logistical data

Packing unit:	50 pcs./carton	**Dimension/carton:**	440x380x230 mm
Total weight:	5.3 kg/carton	**Dimension** (with packing):	200x100x25 mm
Gross weight (with packing):	0.86 kg	**Dimension of article:**	50x25x13 mm
Net weight:	0.027 kg	**Country of origin:**	China
