## Does not fit, does not exist!

Notebooks and other mobile devices are getting thinner and smaller. This is usually at the expense of connectivity options - even the widespread RJ45 LAN port or extra USB inputs are often drastically reduced. Concerning HDMI® connections that many display devices are required, we'd rather not even talk.

With the IB-DK2251 AC, ICY BOX present a practical DockingStation with which any lack of connectors on the PC will not cause any issue. The connection is simple and is accomplished with a USB 3.0. once connected, all the additional eleven ports (4x USB 2.0, 2x USB 3.0, Gigabit LAN, HDMI, headphones & Microphon) are available. This high quality adapter can be used with both current Windows and Mac operating systems.

Thus is the ICY BOX IB-DK2251 AC the perfect companion for eager travelers, business and multimedia enthusiasts who want to be prepared for all any environments.

### Technical data

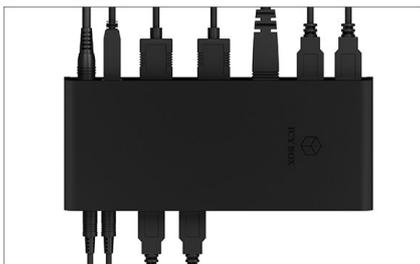

<b>Model</b>	IB-DK2251 AC
<b>Article no.</b>	60638

## Multi-Docking Station for Notebooks and PCs

### Bring diversity to the office everyday

With just one USB 3.0 host interface you receive four further USB 2.0 ports, two USB 3.0 ports, two HDMI® interfaces as well as a Gigabit Ethernet connection and audio ports.

### Multitasking for all

Thanks to the HDMI® video interfaces, two additional screens can be connected, both in Full HD quality. The many available USB 2.0 and USB 3.0 ports make sure you will never have a need to compensate one device over the other.

### Hands and feet

The high quality metal stand makes sure the IB-DK2251 AC is always in balance. Adding all the available ports, this device will make order in every situation.
