USB Type-C® DockingStation

Key features

- Designed for extra connectivity demands of a MacBook Pro® or MacBook Air®
- USB Dual Type-C® notebook DockingStation with nine additional interfaces
- Data transfer, video and Power Delivery via one integrated Type-C® cable
- Two HDMI® video interfaces support resolutions of up to 3840x2160@30/60 Hz
- Mirroring and extension of the existing notebook display
- One USB 3.0 Type-C® and two USB 3.0 Type-A interfaces, data transfer rate up to 5 Gbit/s
- One USB Type-C® interface supports Power Delivery (no data transfer)
- Single-LUN SD 2.0 and microSD 2.0 card reader with up to 25 MB/s
- One Ethernet RJ45 interface, data transfer rate up to 1000 Mbit/s
- Bus powered, no power supply necessary

1x IB-DK4043-2C, 1x quick installation guide

USB Type-C® Notebook DockingStation

The Dual Type-C® Notebook DockingStation is designed for extra connectivity demands of a MacBook Pro® or MacBook Air®. The DockingStation extends the Dual Thunderbolt™ 3 Type-C® interface to an external power supply, two HDMI® displays, USB 3.0 peripherals, RJ45 LAN interface as well as SD and microSD cards. No need to install extra drivers, just Plug & Play! The MacBook power adapter has a Type-C® plug, so you can still charge your computer when you plug the power adapter into the USB Type-C® (PD) port on the DockingStation. You can also process 4K video/audio output via HDMI® and data link via the other USB, LAN and memory card interfaces at the same time.
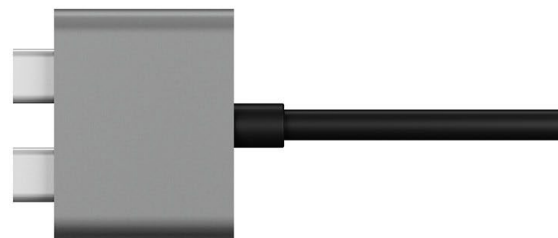

Technical data

|			
Model	IB-DK4043-2C	**Data transfer rate**	USB 3.0 Type-A and Type-C® with up to 5 Gbit/s
Article no.	60743		SD/microSD 2.0 (UHS-I) with up to 25 MB/s
EAN code	4250078170648		LAN with up to 1000 Mbit/s
Brand	ICY BOX	**Power supply**	Bus powered via Thunderbolt™ 3 Type-C® ports
Colour	Anthracite	**Operating system**	macOS® 10.13.x and above
Material	Aluminium/plastic	**System requirements**	MacBook Pro® / MacBook Air® with Dual Thunderbolt™ 3
Input interface	Dual Type-C®		Type-C® interface e.g.: MacBook Pro® 13" and 15"/16"
Output interface	1x Type-C® Power Delivery (pass through)		(≥2017), MacBook Air® (≥2018)
	2x Type-A USB 3.0		SD 2.0 and microSD 2.0 cards to reach data transfer rates of
	1x Type-C® USB 3.0		up to 25 MB/s
	1+1 SD/microSD 2.0 (UHS-I)		Single-LUN - the card reader can only work with one memory
	1x Ethernet RJ45		card at a time
	2x High Speed HDMI®		No power supply included (only necessary for Power Delivery)
Video resolution	Port 1: High Speed HDMI® with up to 3840x2160@60 Hz		
	Port 2: High Speed HDMI® with up to 3840x2160@30 Hz

## USB Type-C® DockingStation

Ever powerful

The DockingStation is of our usual high quality and can be used with macOS® operating systems and dual Type-C® equipped MacBooks. Thus, the IB-DK4043-2C is the perfect companion for eager travellers, business people and multimedia enthusiasts who want to be prepared for all working conditions.

LAN port – faster AND safer

While the dream of cable-free devices is being lived, in many cases it is not the best option when high data transfer rates are needed. Cable connections are more secure than wireless, that means they offer a lower risk of incidents especially when one does not want to or cannot fully exploit the security measures available via WLAN. Thus, an Ethernet interface is the best way to transfer files between devices at maximum transfer rates and maximum security.

Appearance and performance

This DockingStation perfectly combines top-quality appearance and latest technology in a compact size. The premium aluminium enclosure offers convenient access to the most important expansion ports. With this DockingStation you have a versatile accessory that will also perfectly complement your home or office work-station.

Logistical data

Packing unit:	60 pcs./carton	**Dimension/carton:**	440x330x280 mm
Total weight:	10.9 kg/carton	**Dimension** (with packing)**:**	100x25x200 mm
Gross weight (with packing)**:**	0.170 kg	**Dimension of article:**	130x45x14 mm
