USB Type-C™ Enclosure for 2.5" HDD/SSD

The height is crucial

Hard disks and SSDs with a height of up to 9.5 mm can be accommodated in the enclosure. It's especially suitable for SSDs, since they can work even faster than the conventional HDDs.

Well thought out

Thanks to the well-thought-out design, the integrated USB 3.1 cable can be hidden in the enclosure, which makes the use of an external cable unnecessary. This makes the enclosure very space-saving and it can be connected anywhere with a USB Type-C™ capable device.

Well packed

This enclosure protects a hard disk or SSD of up to 9.5 mm height against shocks and dust. With the new USB Type-C™ connection you will see faster data transfer rates than ever before.
